Foscarini

Trasformiamo gli spazi di vita — *We transform life's spaces*

Dietro a ogni prodotto Foscarini,
ci sono persone che lavorano con il cuore,
la testa, le mani. Dando forma a lampade
di design capaci di dialogare con gli
ambienti: notte e giorno, seducono –
se accese; sorprendono – quando spente.
Il loro segno è pulito, denso, racconta una
storia. Porge bellezza, muove emozioni.

Behind every Foscarini product there
are people who work with the heart, the
head and the hands. Giving form to design
lamps that establish a dialogue with spaces:
night and day, they seduce – when on; and
surprise – when off. Their image is clean,
intense, and tells a story. Offering beauty,
triggering emotions.

Foscarini

All'inizio, il progetto — *At the outset, the project*

Ci serviamo del fare: dalle tecniche artigianali, ai moderni materiali e processi produttivi. Ma il nostro patrimonio è anzitutto la capacità di creare pensiero: il nostro approccio è quello del designer, dell'artista, e sempre improntato alla trasversalità. Come testimonia "INVENTARIO", il nostro libro-rivista: dove tutto è progetto.

We make use of making: crafts techniques, modern materials and production processes. But our legacy lies above all in the ability to create thought: our approach is that of the designer, the artist, always seeking versatile connections. As in the case of INVENTARIO, our magazine-book: where everything is a project.
