Sovet blends the tradition of Italian glass art and the inspirations of contemporary design, to create pieces of furniture that speak an original, elegant and versatile language. A story that communicates emotions and welfare, through the quality of the materials and the manufacture, the versatility of the project, the sustainability of the production process. Continuing in time, characterizing the most different spaces, creating unexpected contrasts and reassuring harmonies in everyday life.

Sovet fonde la tradizione dell'arte vetraria italiana e le ispirazioni del design contemporaneo, per dare vita a elementi d'arredo che parlano un linguaggio originale, elegante e multiforme. Un racconto che comunica emozioni e benessere, attraverso la qualità dei materiali e della realizzazione, la trasversalità del progetto, la sostenibilità del processo produttivo. Continuando nel tempo, caratterizzando gli spazi più diversi, creando contrasti inaspettati e rassicuranti armonie nella vita di ogni giorno.

history

Sovet was founded in the late 80s to explore the expressive possibilities of the glass in the contemporary furnishing. Since the early 2000s Sovet began its collaboration with important international designers and started combining the glass with other materials, extending its research in the name of creativity and continuous evolution.

Sovet nasce alla fine degli anni '80 per esplorare le possibilità espressive del vetro nell'arredo contemporaneo. Dai primi anni 2000 intraprende la collaborazione con importanti designer internazionali e affianca al vetro altri materiali, ampliando la propria ricerca nel segno della creatività e dell'evoluzione continua.

made in italy

The value of a product can also be measured by the care it takes to make it. The creative use of industrial processes, the highest quality raw materials and the meticulous works performed by local workers allow Sovet to get collections of high quality and 100% Made in Italy.

Il valore di un prodotto si misura anche dalla cura che si impiega per realizzarlo. L'impiego creativo dei processi industriali, l'utilizzo di materie prime di assoluta qualità e le scrupolose lavorazioni eseguite da maestranze locali, permettono a Sovet di ottenere collezioni di alta qualità e 100% Made in Italy.

technology

Sovet combines experience, technology and strict selection of the materials in its production processes, characterized by the highest quality levels. Its production ranges from the use of glass, proposed only in its purest extralight version, to the use of steel, aluminium, ceramic and wood. Entirely made in Italy, Sovet products are exported to over 70 countries worldwide.

Sovet unisce esperienza, tecnologia e rigorosa selezione dei materiali, spaziando dall'utilizzo del vetro, proposto solo nella sua versione più pura in extrachiaro, all'utilizzo di acciaio, alluminio, ceramica e legno, in un processo produttivo sempre caratterizzato dai più elevati livelli di qualità. Completamente realizzati in Italia, i prodotti Sovet vengono esportati in oltre 70 paesi del mondo.

design

Formal research and project quality: these are the basic elements of the whole Sovet collection. A proposal that offers a variety of choices among many furnishing possibilities, sizes, colours, with a timeless essentiality. A rational and versatile contribution to create an ideal habitat.

Ricerca formale e qualità del progetto, sono elementi fondamentali dell'intera collezione Sovet. Una proposta che offre una vasta possibilità di scelta fra tipologie d'arredo, dimensioni e colori, sempre nel segno di un'essenzialità che va oltre il tempo. Un contributo ragionato e versatile, per dare vita a un habitat ideale.

Studio Lievore Altherr Molina

Matthias Demacker

Gianluigi Landoni

designers

Sovet's design arises from the meeting between the company know-how and the creative inspirations and project culture of renowned personalities such as Lievore Altherr Molina, Gianluigi Landoni, Matthias Demacker, to create a constantly evolving and original range of products.

Il design Sovet nasce dall'incontro fra l'esperienza e la conoscenza aziendale, con le ispirazioni creative e la cultura del progetto di personalità affermate, come Lievore Altherr Molina, Gianluigi Landoni, Matthias Demacker, per creare insieme una gamma di arredi originale e in costante evoluzione.

essential collection

Minimal presences in the space that generate multiple effects of light and shadows, transparencies and materials combinations. Pieces of furniture that become an integral part of the architecture and the culture of living. Essential collection came from the Sovet's research and from the creativity of Lievore Altherr Molina studio and architect Gianluigi Landoni.

Presenze minimali nello spazio che generano giochi di luci e ombre, trasparenze e abbinamenti di materiali. Arredi che diventano parte integrante di un'architettura e di una cultura dell'abitare. La collezione Essential nasce dalla ricerca Sovet e dalla creatività dello studio Lievore Altherr Molina e dell'architetto Gianluigi Landoni.

Regolo

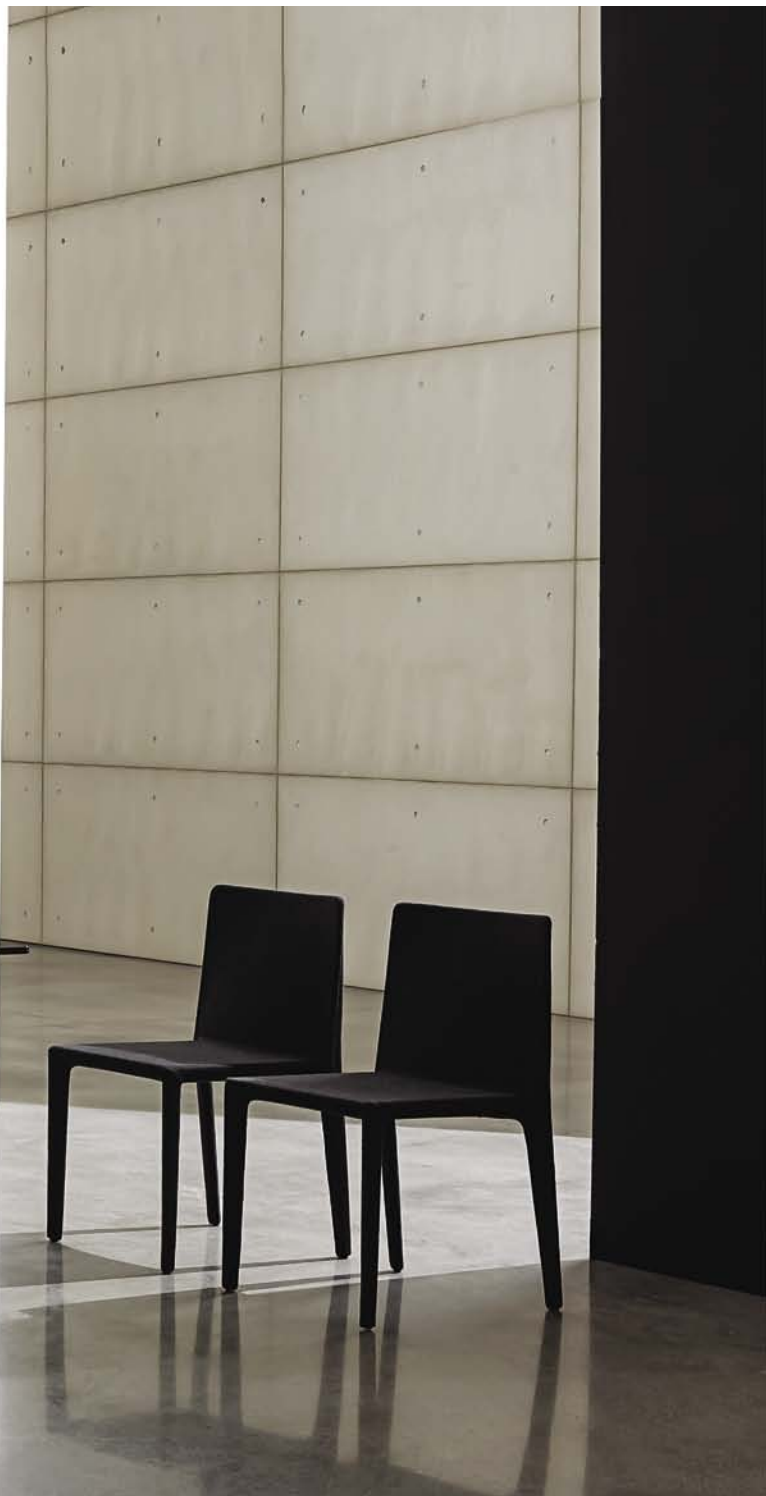

Different geometric shapes and various combinations of materials, create infinite uses and setting possibilities. A simple concept from which arises a complete collection of tables and accessories for the most varied environments and situations.

Forme geometriche e abbinamenti materici sempre diversi, creano infinite possibilità di ambientazione e utilizzo. Un concetto semplice dal quale nasce una famiglia completa di tavoli e complementi, per gli ambienti e le situazioni più diverse.

“
**Good design is
expressed through
a constant dialogue
between matter
and form offering
neverending
inspirations.**
”

shapes collection

Shapes expresses the research of an harmonious fusion between form and function which is achieved through the combination of traditional glassworking and advanced technologies and design standards. Thus original and refined furniture pieces arise to characterize each type of space in a unique way.

Shapes esprime una ricerca di sintesi armoniosa tra forma e funzione, ottenuta attraverso l'unione della tradizionale arte vetraria con tecnologie e criteri progettuali avanzati. Nascono così dei complementi d'arredo originali e raffinati, destinati a caratterizzare in maniera unica ogni tipo di spazio.

Slim

Slim is a line of rational design that conveys great lightness. Tables, coffee tables, consoles and benches that meet all tastes and requirements. Thanks to the different available combinations the collection fits in all situations: home, contract spaces and also outdoor.

La serie Slim è caratterizzata da un design essenziale che esprime grande leggerezza. Tavoli, tavolini, console e panche risolvono ogni desiderio ed esigenza, in molteplici situazioni e abbinamenti: in casa, negli ambienti contract e anche nell'outdoor.

Cross

Two industrial-inspired elements that blend together in a composition that reminds of a railway crossing. This is the basic design idea of Cross, a table that represents a meeting point between the concepts of stability and dynamism, strength and harmony, thought and material.

Due elementi di ispirazione industriale che si compenetrano in una composizione che ricorda un incrocio ferroviario. Questa è la base progettuale di Cross, un tavolo che rappresenta un punto d'incontro fra i concetti di stabilità e dinamismo, forza e armonia, pensiero e materia.

Lambda

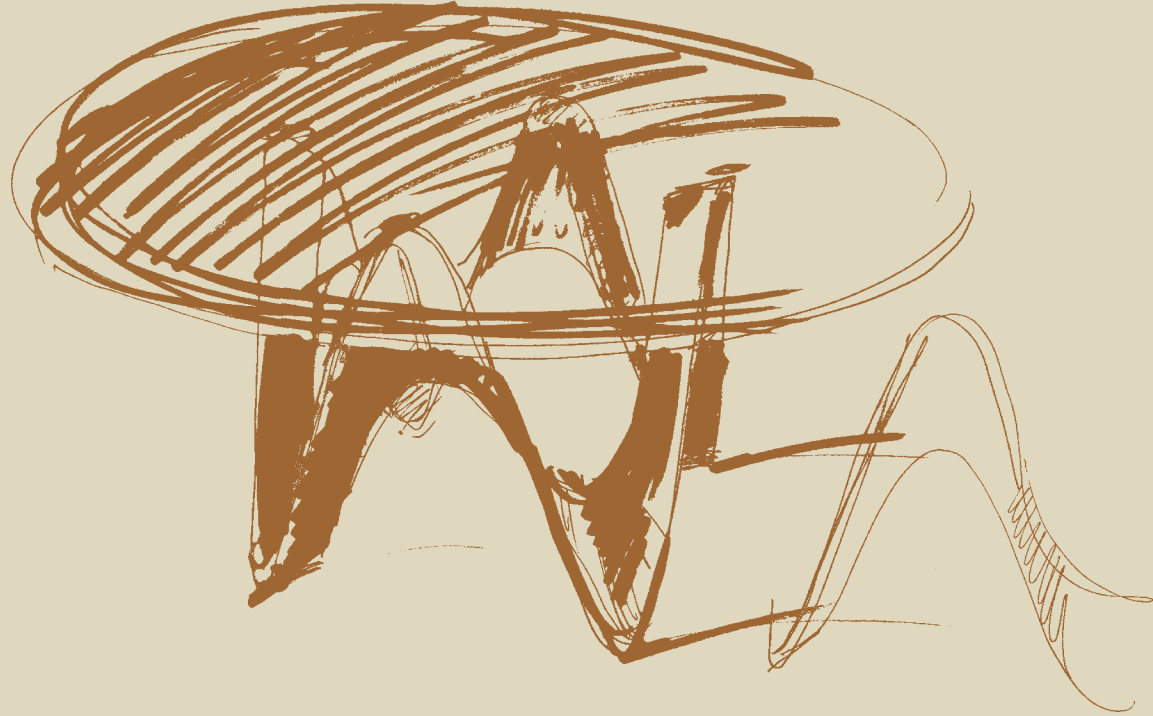

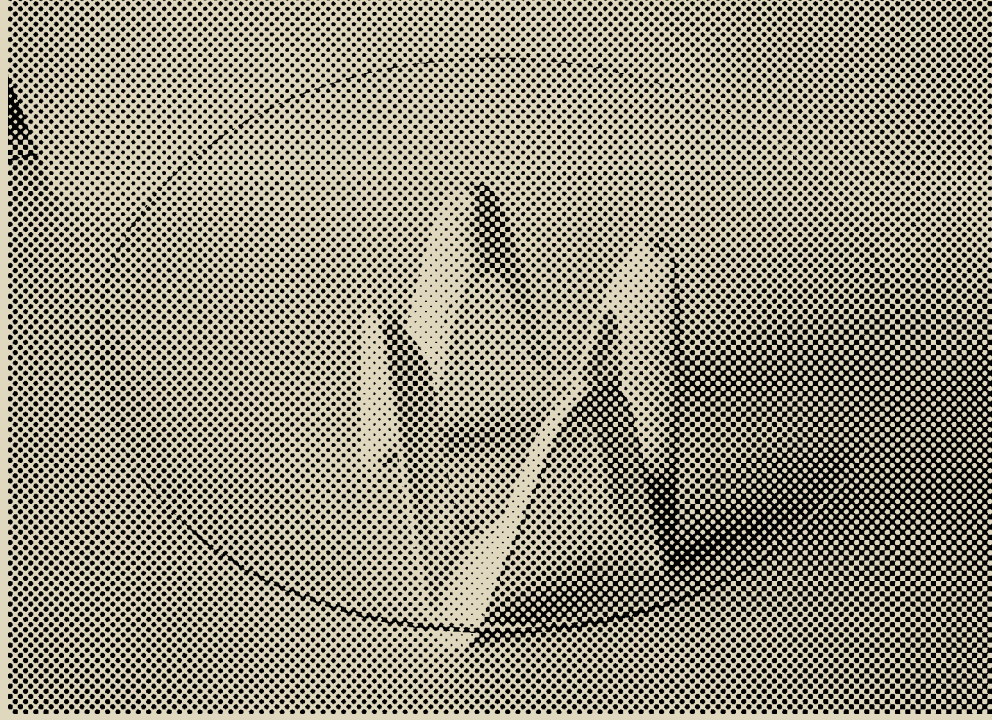

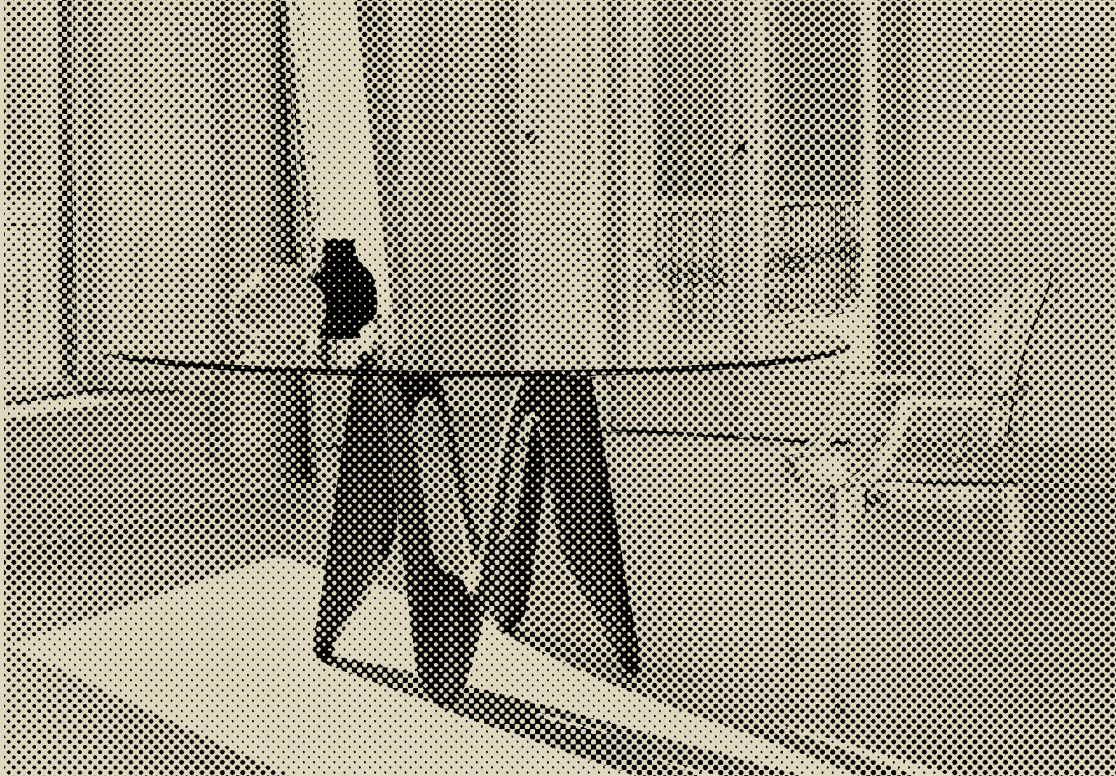

The table has been inspired by the dynamism of a moving element, like the ribbon of a gymnast that vaults in the air drawing natural and soft shapes. Its original look furnishes the living area with a touch of essential harmony.

Lambda è ispirato al dinamismo di una forma in movimento, come il nastro di una ginnasta che volteggia nello spazio disegnando forme morbide e libere. La sua estetica originale si propone di arredare lo spazio giorno con una nota di essenziale armonia.

Valencia

Thanks to its transparent and aerial architecture the Valencia dining table creates original visual effects through the combination of the glass base and the top available in different materials and finishes. An idea that shapes infinite possibilities, always with a unique design.

Come un'architettura trasparente ed aerea, il tavolo Valencia crea inediti effetti visivi, attraverso l'abbinamento fra la base in cristallo e il piano in diversi materiali e finiture. Un'idea che dà forma a molteplici possibilità, sempre con un design inconfondibile.

Totem

A mat stainless steel or lacquered metal base meets a top in glass, wood, ceramic or Materia, to make up a collection of tables with a distinctive personality and versatility in the setting: from the home to contract spaces.

Una base in acciaio inox o in metallo laccato, incontra un piano in cristallo, legno, ceramica o Materia, per dare forma a una famiglia di tavoli tanto ricchi di personalità, quanto versatili nell'ambientazione: dagli ambienti domestici, agli spazi contract.

Flûte

Elegant and light like the namesake glass, this table takes different personalities according to the chosen material and colour combinations: from the top in lacquered glass, Materia, wood, ceramic or hpl, to the base in lacquered or polished chrome metal.

Elegante e leggero come il calice da cui prende il nome, questo tavolo prende diverse personalità a seconda degli abbinamenti materici e cromatici prescelti: dal piano in vetro laccato, Materia, legno, ceramica o hpl, alla base in metallo cromato o laccato.

Aikido

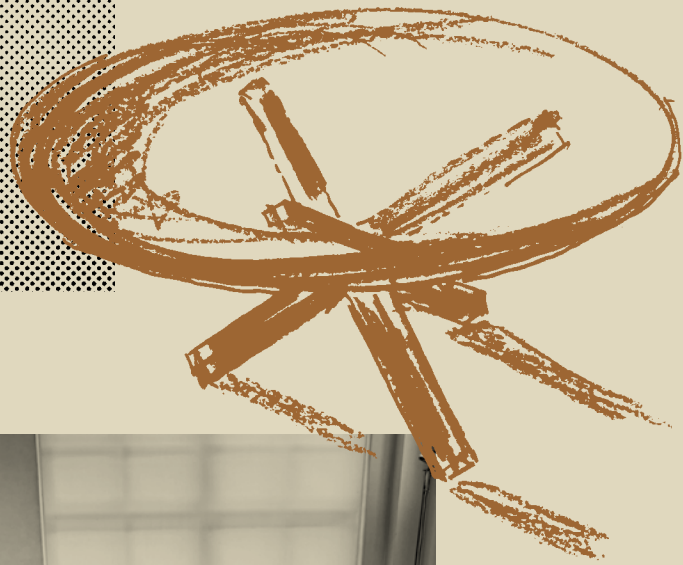

Aikido is a dining table of essential design which becomes protagonist of daily life and of any space thanks to its warm and prestigious materials. The single base matches with the round, oval or square top while the double base completed by the rectangular top is the ideal solution for big home spaces and meeting rooms.

L'essenziale design del tavolo Aikido lo rende protagonista dello spazio e della vita quotidiana grazie al calore e al prestigio dei materiali che lo compongono. La base è singola quando associata al top tondo, ovale o quadrato, oppure doppia per il piano rettangolare, adatto soprattutto a grandi ambienti casa e ufficio.

Toronto

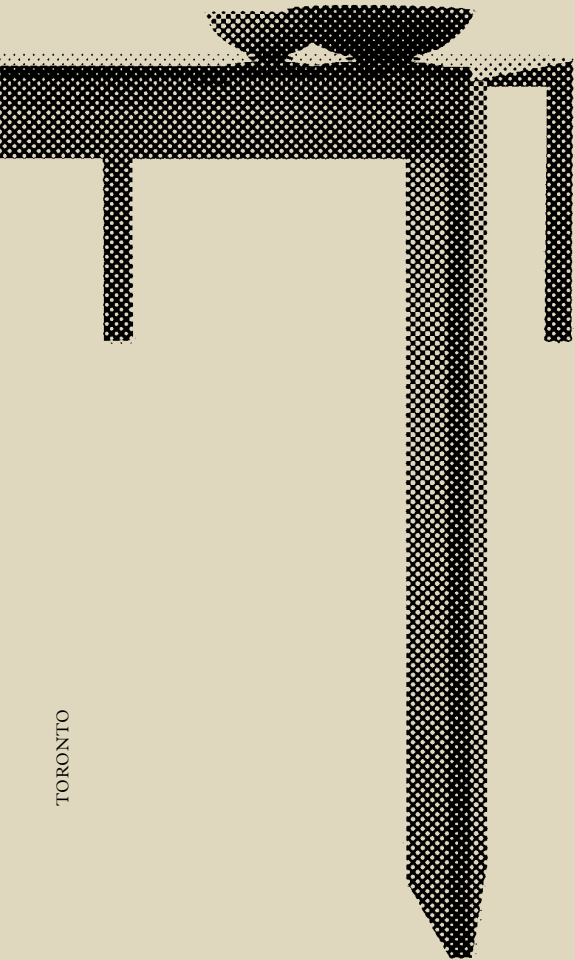

The lacquered or plated glass top of Toronto table is supported by a wooden base. The legs with the special “V” profile give a lively visual sense of lightness, while maintaining the solidity and strong presence of the overall structure.

La lastra di cristallo laccato o placcato che costituisce il top del tavolo Toronto è sorretta da una basamento in legno. Le gambe dal particolare profilo a “V” offrono alla vista una dinamica sensazione di leggerezza, mantenendo la solidità e la forte presenza dell’insieme.

Frog

Frog tables are made from a single glass sheet curved and shaped with skillful technique. The purity of its design belies its exceptional strength for each setting and use, thanks to the use of a very thick bent glass.

I tavoli Frog sono realizzati con un'unica lastra di vetro, sagomata e piegata con sapiente tecnica. Alla purezza del design corrisponde una particolare resistenza, per ogni situazione ambientale e d'uso, grazie all'utilizzo di un grosso spessore di vetro curvato.

Design **Lievore Altherr Molina**

Nido

Curved glass and chrome metal profile are joined together to create a single form, able to create different chromatic combinations and types of furniture: from the coffee table to the console. An idea that can satisfy different needs with a unique style.

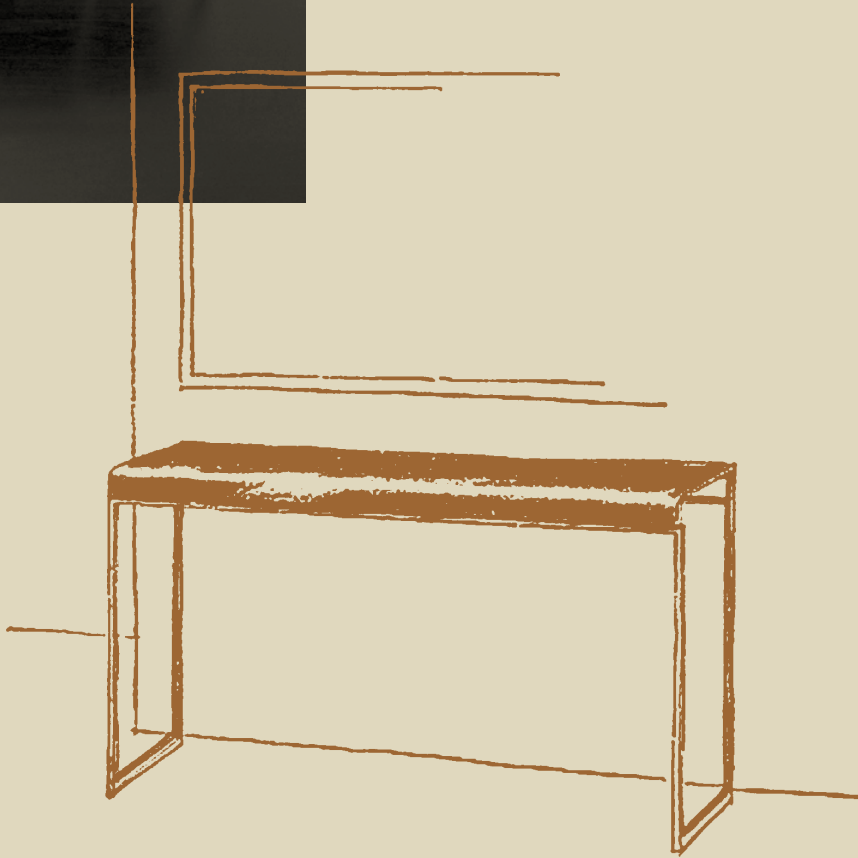

Il vetro curvato e il profilo metallico cromato si uniscono in una sola forma, proponendo diversi abbinamenti cromatici e tipologie d'arredo: dal tavolino, alla console. Un'idea che può risolvere con stile molte esigenze.

Ring

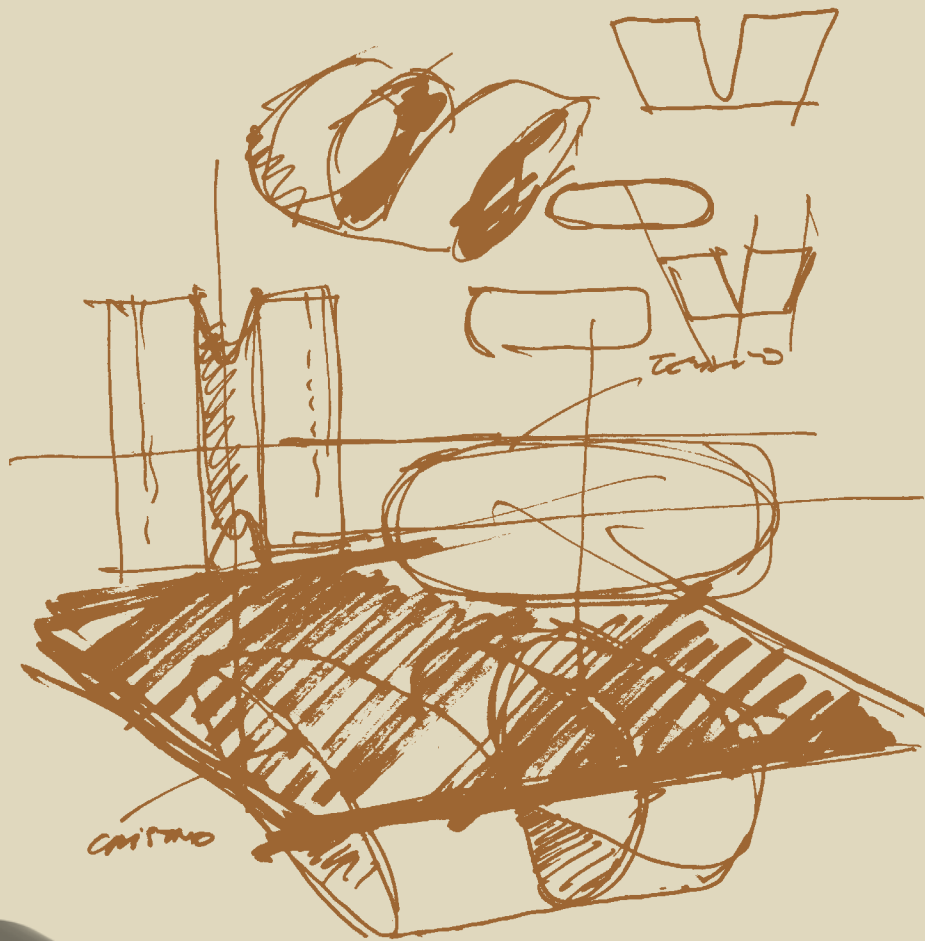

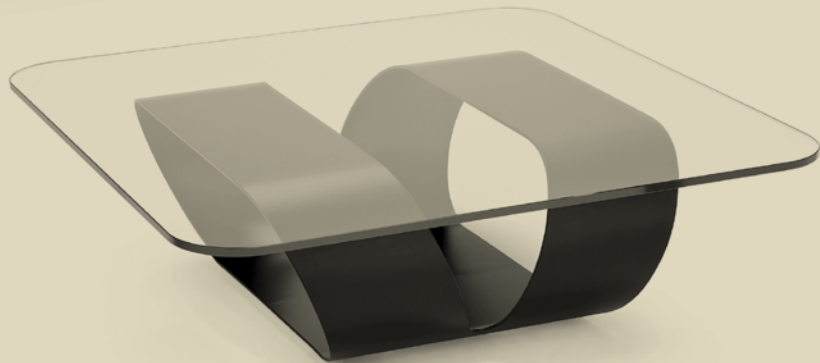

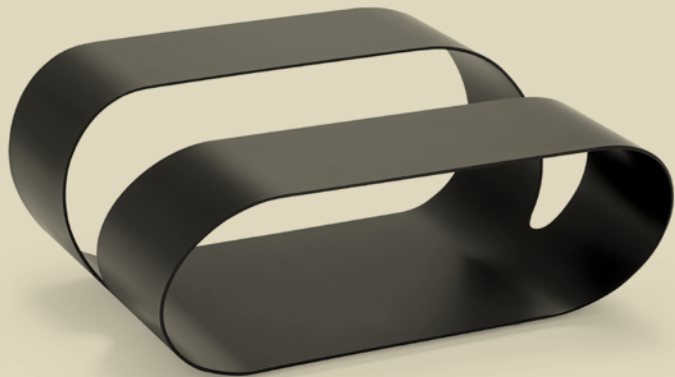

Escher's impossible figures inspire a coffee table that founds its uniqueness on the particular design of the base, available singularly or matched with a glass top.

Le geometrie impossibili di M. C. Escher ispirano un tavolino che fonda la sua unicità sul particolare design della base, disponibile da sola oppure abbinata ad un piano in vetro.

Rubino

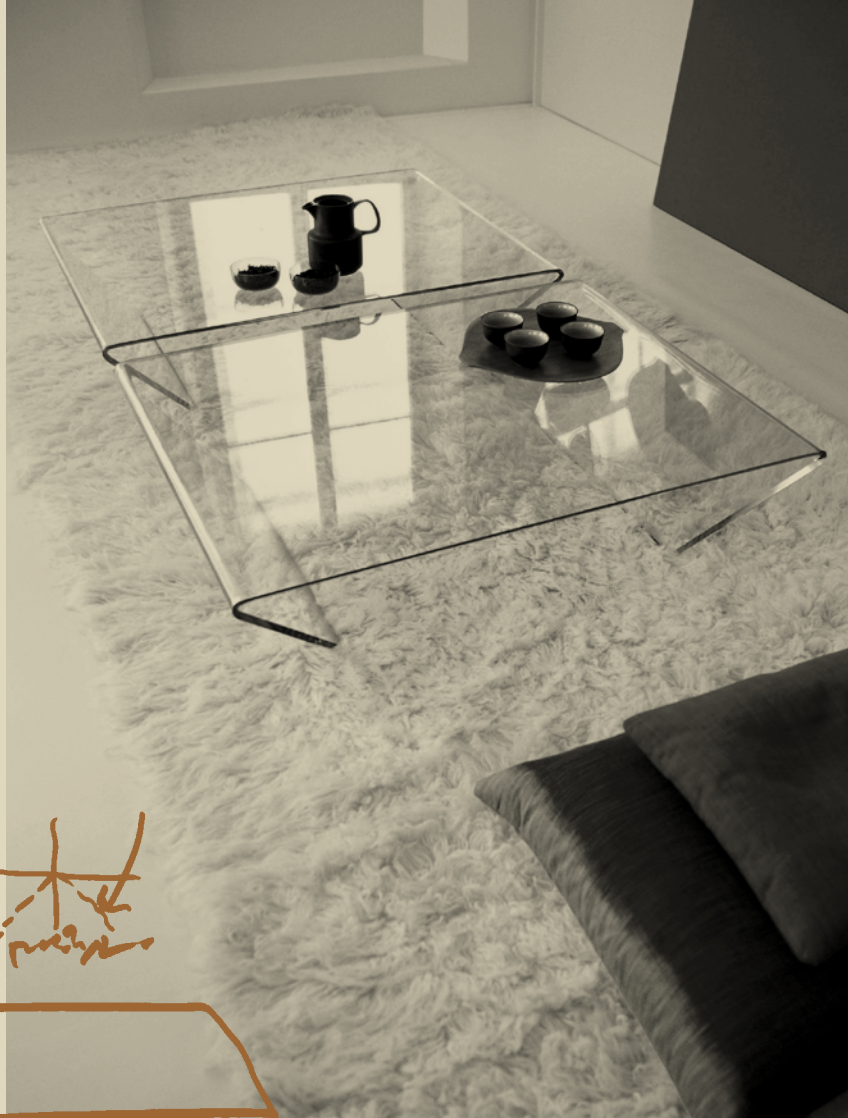

Rubino is a jewel of elegance and manufacturing technique: the glass sweeping curve which is its distinguishing design feature, is achieved through an exclusive process which gives a feeling of floating lightness.

Rubino è un gioiello di eleganza ma anche di tecnica: la curvatura estrema della lastra di vetro che caratterizza il suo design, è realizzata con un procedimento esclusivo che gli conferisce una sensazione di immateriale sospensione.

Zeta

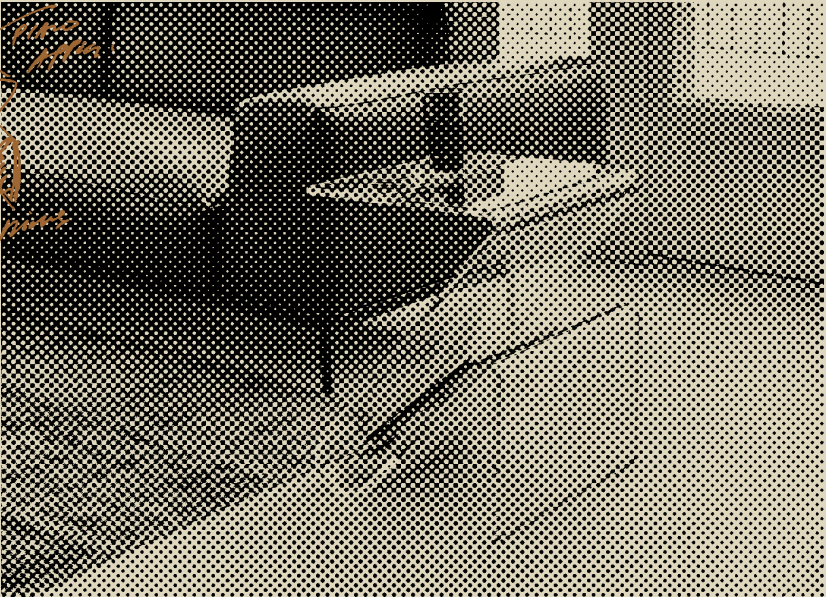

Pureness and minimalism are the reading keys of this object that joins simplicity and functionality. A single sheet of glass artfully cut creates an accessory that serves as a magazine rack and as a practical coffee table at the same time.

Purezza e minimalismo sono le chiavi di lettura di un prodotto che unisce semplicità e funzionalità. Un'unica lastra di cristallo sapientemente curvata crea un complemento che funge al tempo stesso da portariviste e pratico tavolino.

Denver

A range of mirrors available in horizontal and vertical versions, with edge-to-edge mirror surfaces or with a lacquered, decorated or frosted frame. The bold dimensions of these mirrors personalize and expand the space at the same time.

Una serie di specchi, disponibili in versione orizzontale e verticale, completamente riflettenti oppure con cornice laccata, decorata o satinata. Le loro imponenti dimensioni caratterizzano e allo stesso tempo amplificano lo spazio.

Denver Up

Denver Up adds to the wide mirrored surface that is raised from the frame, the magic of the light spreading out directly from its perimeter, creating a very particular effect: both in horizontal and vertical version.

Denver Up aggiunge all'ampia superficie riflettente dello specchio, sollevato rispetto alla cornice, la magia della luce che si diffonde direttamente dal suo perimetro, creando un effetto molto particolare: sia nella versione verticale che in quella orizzontale.

Boston

Boston is a wall mirror that reflects an in-depth search of simplicity and beauty. The lacquer finish of the frame, available in various colours, is applied to the back of the glass for an even shiner appearance. Available also in a totally mirrored finish.

Boston è una specchiera da parete che riflette un'approfondita ricerca di semplicità e bellezza. La laccatura del bordo, in diversi colori, è applicata sul retro del cristallo: questo la rende ancora più brillante alla vista. Viene inoltre proposta anche in versione completamente a specchio.

Vertigo

The special engraving that surrounds the mirrored surface of Vertigo creates a particular visual effect, able to give a touch of originality to the room. Available in various sizes, it can be also provided with a led lighting on the back that enhances its scenographic presence.

La particolare incisione che circonda la superficie riflettente dello specchio Vertigo, crea un particolare effetto visivo, destinato a non restare inosservato nello spazio. Disponibile in varie dimensioni, può essere dotato di sistema di retroilluminazione a led che ne accresce la presenza scenografica.

Gocce Di Rugiada

Gocce di rugiada is a collection of soft lines mirrors, like lots of water drops gliding from autumn leafs. This feature, together with the panel on the back that allows a 360° rotation, allows to create infinite combinations, with even newer effects. Available also in the smoked and bronzed version to get further chromatic choices.

Gocce di Rugiada è una collezione di specchi dalle forme morbide, come gocce che scivolano su una foglia. Questa caratteristica, unita alla possibilità di ruotare gli specchi a 360°, permette di creare le più diverse combinazioni, con effetti sempre diversi. Disponibili anche in versione fumè e bronzo, per dare vita a ulteriori scelte cromatiche.

Sila

Sila is a chair project from which a lot of different versions take form, starting from simple shapes and natural materials. The body in multi-layer wood, available also padded and covered, is supported by a slim metal base, stackable or trestle.

Sila è un progetto di seduta che dà vita a tante varianti diverse, partendo da semplici forme e materiali naturali. La scocca in legno multistrato, disponibile anche con imbottitura e rivestimento, è sostenuta da una snella base metallica, impilabile oppure a trespolo.

Discipline per Sovet

Autumn Chair

Thanks to the sophisticated proportion between the structure and the seat, which seems to be suspended, it represents the typical expression of Italian craftsmanship. The structure is made in curved wood, natural or black stained finish, and is matched with a walnut or leather covered seat.

Sofisticata nel rapporto fra la struttura e il sedile, che risulta come sospeso, rappresenta una tipica espressione dell'artigianalità italiana. La struttura è infatti realizzata in legno curvato, con finitura naturale o nera, abbinato al sedile in noce oppure con rivestimento in pelle.

Discipline per Sovet

Two Tone Chair

Versatile, comfortable and friendly, this chair is made up of a curved wood structure, with or without arms, and a one-tone or two-tone multi-layer seat, covered in fabric or leather. The version without arms is stackable up to 4 chairs.

Versatile, accogliente ed amichevole, questa seduta è realizzata con una struttura in legno curvato, con o senza braccioli, ed una scocca in multistrato, ricoperta in pelle o tessuto, nelle varianti monocromatiche o bicolori. La versione senza braccioli è impilabile fino a 4 sedie.

Flûte Girevole

Flûte is a swivel chair that is ideal for different places such as home and office. It is available with polished chrome or lacquered metal structure. The comfortable seat with arms is in white or black polypropylene, also painted upon request. The fake leather cushion makes the seat more comfortable.

Flûte girevole è una sedia che si adatta a molteplici ambienti, sia nella casa che nell'ufficio. È disponibile con struttura in metallo cromato o laccato. La comoda scocca con braccioli è realizzata in polipropilene bianco, nero oppure, su richiesta, verniciata con colore a campione. La seduta è resa ancora più comoda da un cuscino in ecopelle.

materials

The lacquer used for our items is extremely durable as long as you avoid scratching it or bumping particularly hard/sharp object against it. The shade of the samples is only indicative and has not to be taken as restrictive. It can in fact slightly differ in conformity to the tolerances recognized for the materials used. Lacquered glass can be easily cleaned with water only or with a mild detergent. Do not use abrasive materials, acids or harsh chemicals.

Le laccature utilizzate non presentano problemi di durata: è sufficiente evitare graffi e urti contro oggetti particolarmente duri e spigolosi. La tonalità dei campioni proposti è indicativa e non va per tanto intesa in senso restrittivo, può infatti differire leggermente in conformità ai margini di tolleranza riconosciuti per i materiali impiegati. Il vetro laccato può essere pulito solo con acqua oppure con un detergente neutro. Evitare l'uso di abrasivi, acidi o reagenti chimici.
